## (54) SYSTEM FOR USING CHART AND DATA IN DOCUMENT

### (57)Abstract:

**PURPOSE:** To reduce burden of an operator by automatically changing all text strings basing data on a copy along with a change of the data in the chart in preparing the text string by copying the data in the chart.

**CONSTITUTION:** By providing link information for showing a copy front in the information controlling a inner-chart frame 15 surrounded by a ruled line in the chart and by imbedding control information for discriminating the data copied in text data, the system searches, when the data in an inner-chart frame 16 are changed, the data 17 and 18 at the copy front are searched based on said link information to enable change of the copy data in the above control information. Therefore, when utilizing the data in the inner-chart frame in the text data by copying them, the copy front data are automatically corrected, when the inner-chart frame data are corrected.

## LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]
